

S-290 INTERMEDIATE WILDLAND FIRE BEHAVIOR

CLASS DATES:
MARCH 31 - APRIL 3, 2025
8:00 AM - 5:00 PM
$425.00

This 4-day course is designed to provide participants with the knowledge and skills needed to predict fire behavior and understand the factors influencing fire dynamics. Topics include fire behavior models, fuel types, weather conditions, topography, and how they interact in wildland fire environments.

<u>Objectives:</u>
Identify and describe the characteristics of fuels, weather, and topography that influence wildland fire behavior. Describe the interaction of fuels, weather, and topography on wildland fire behavior, fireline tactics, and safety. Describe the causes of extreme fire behavior conditions (long range spotting, crowning, and fire whirls) that develop due to weather, fuels, and/or topography. Interpret, communicate, apply, and document wildland fire behavior and weather information.

<u>Prerequisite Qualifications and Training:</u>
Successful completion of S-190, Introduction to Wildland Fire Behavior.

Tuition is non-refundable if a cancellation by Student is received within 14 days prior to the class start date.
